Professional Summary

Software Developer with over 3 years of experience specializing in cross-platform mobile app development (React Native) and web applications (React.js). Proven track record of delivering high-performance solutions to major app stores. Skilled in modern JavaScript (ES6+), TypeScript, Redux Toolkit, and REST APIs. Focused on writing clean code, building secure user experiences, and automating deployment pipelines.

Technical Skills

Languages & Core: JavaScript (ES6+), TypeScript, HTML5, CSS3, JavaScript Engine Internals
Web & Mobile Frameworks: React Native, React.js, Redux Toolkit, Context API, Tailwind CSS
Tools & Services: Firebase, RESTful APIs, Git, NPM/Yarn, Android Studio, Xcode
DevOps & Deployment: CI/CD Pipelines, Fastlane, Google Play Console, Apple App Store Connect

Professional Experience

Software Developer
HangingPanda Pvt Ltd

Noida, Uttar Pradesh
April 2023 – Present

- Engineered and launched 7+ production-ready mobile applications using React Native, maintaining a 99% crash-free rate across iOS and Android platforms.
- Constructed scalable, responsive web platforms and enterprise admin dashboards leveraging React.js, Tailwind CSS, and the Context API.
- Boosted application performance by 25% by optimizing component rendering, minimizing API response times, and orchestrating state management via Redux Toolkit.
- Integrated front-end interfaces seamlessly with RESTful APIs, third-party services, and real-time Firebase architectures.
- Automated end-to-end CI/CD deployment pipelines using Fastlane, Xcode, and Android Studio, accelerating release cycles for both major app stores.

Key Projects

Smart Attendance System — *React Native, TypeScript, Redux Toolkit, REST APIs*

- Designed an enterprise-grade biometric attendance system supporting six authorization protocols (GPS, Wi-Fi, NFC, QR, Bluetooth, and Voice).
- Integrated live face verification, voice-to-voice matching, and device-level biometric locks to strictly eliminate proxy check-ins.
- Formulated a comprehensive leave management module featuring automated notifications, multi-tier approval workflows, and exportable analytics for administrators.
- Enforced strict security measures, including rooted device detection, mock location blocking, and VPN restrictions, paired with background data synchronization to guarantee offline integrity.

Ding Mobile App & Web Admin — *React Native, React.js, Stripe, IAP, OAuth*

- Enhanced the core mobile application by implementing a robust feature set, including secure messaging, QR-based channel discovery, deep linking, rich media attachments, and dynamic light/dark UI themes.
- Orchestrated frontend monetization flows by integrating React Native In-App Purchases (IAP) for mobile subscriptions and Stripe payment gateways for the administrative web platform.
- Refined production-ready user journeys for channel management, scheduled communications, notification-driven navigation, and secure OAuth authentication (Google and Apple Login).

Education

Bachelor of Technology (B.Tech) - Computer Science and Engineering
Greater Noida Institute of Technology - Greater Noida — 2019 - 2022
